INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Fire District No. 4
Township of Gloucester
Blackwood, New Jersey 08012

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and each major fund of the Township of Gloucester Fire District No. 4, in the County of Camden, State of New Jersey, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Fire District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Township of Gloucester Fire District No. 4, in the County of Camden, State of New Jersey, as of December 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Fire District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

Change in Accounting Principle

As described in note 1 to the financial statements, during the year ended December 31, 2022, the Fire District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

Consistency of Financial Statements

Because of the implementation of GASB Statement No. 87, the Fire District has determined that certain disclosures of long-term liabilities relating to capital leases in the prior year are now disclosed as financed purchases (note 6). In addition, the Fire District has also determined that certain disclosures of leases, formerly classified as operating, now meet the criteria of this Statement. As a result, a capital asset and long-term liability are recorded for the underlying lease (notes 5 and 6). Our opinions are not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fire District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fire District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fire District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the Fire District's proportionate share of the net pension liability, schedule of the Fire District's pension contributions, schedule of the Fire District's proportionate share of the net opeb liability, and schedule of the Fire District's opeb contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fire District's basic financial statements. The accompanying major fund supporting statements and schedules are presented for purposes of additional analysis, as required by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey, and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying major fund supporting statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2023 on our consideration of the Township of Gloucester Fire District No. 4's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township of Gloucester Fire District No. 4's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township of Gloucester Fire District No. 4's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

INDEPENDENT AUDITOR'S REPORT

Board of Fire Commissioners
Fire District No. 4
Township of Gloucester
Blackwood, New Jersey 08012

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial statement audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and in compliance with audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements of the governmental activities and each major fund of the Township of Gloucester Fire District No. 4, in the County of Camden, State of New Jersey, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Fire District's basic financial statements, and have issued our report thereon dated October 31, 2023. Our report on the financial statements included an emphasis of matter paragraph describing the adoption of a new accounting principle and an additional paragraph on the consistency of financial statements resulting from the new accounting principle.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Township of Gloucester Fire District No. 4's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fire District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fire District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

39254

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township of Gloucester Fire District No. 4's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, and audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Bureau of Authority Regulation, Division of Local Government Services, Department of Community Affairs, State of New Jersey, in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FINANCIAL SECTION

GLOUCESTER TOWNSHIP FIRE DISTRICT NO. 4
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2022
(UNAUDITED)

As management of the Gloucester Township Fire District No. 4, we offer readers of the Fire District's financial statements this narrative overview and analysis of the financial activities of the Fire District for the year ended December 31, 2022. The intent of this discussion and analysis is to look at the Fire District information furnished in the notes to the basic financial statements along with the financial statements to enhance their understanding of the Fire District performance as a whole. Readers should also review the information furnished in the notes to the basic financial statements along with the financial statements to enhance their understanding of the Gloucester Township Fire District No. 4's financial performance.

Financial Highlights

- On December 31, 2022, in the statement of net position liabilities exceeded assets by a deficit of \$1,614,911.33, a decrease in the deficit of \$34,444.49 from the December 31, 2021 deficit balance of \$1,649,355.82.
- On December 31, 2022, the Gloucester Township Fire District No. 4's governmental funds reported combined ending fund balances of \$1,914,139.53, a decrease of \$13,451.39 from the prior year balance of \$1,927,590.92.
- The general fund balance as of December 31, 2022 was \$1,914,139.53. This was a decrease in the amount of \$13,451.39 from the balance as of December 31, 2021 of \$1,927,590.92.
- The special revenue fund, capital project fund and debt service fund had a total balance of \$0 as of December 31, 2022, which was the same balance on December 31, 2021.
- There was a budgeted debt repayment made in 2022 of \$191,964.00 for financed purchases. This was the same amount budgeted for debt repayments in 2021.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the Gloucester Township Fire District No. 4's basic financial statements. The Fire District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Gloucester Township Fire District No. 4's finances, in a manner similar to a private sector business.

The Statement of Net Position presents information on all of the Gloucester Township Fire District No. 4's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Gloucester Township Fire District No. 4 is improving or deteriorating.

The Statement of Activities presents information showing how the Gloucester Township Fire District No. 4's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., earned but unused sick leave).

Government-wide financial statements (Cont'd)

Both of the financial statements distinguish functions of the Gloucester Township Fire District No. 4 that are principally supported by taxes and intergovernmental revenues (governmental activities). The activities of the Gloucester Township Fire District No. 4 include fire-fighting and emergency medical services that are provided to the residents and visitors of the Gloucester Township Fire District No. 4.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Gloucester Township Fire District No. 4, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Gloucester Township Fire District No. 4 constitute one fund type--governmental funds.

Governmental Funds

Governmental funds focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed, short-term view of the district's general government operations and the basic services it provides. Government fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance fire-fighting services.

The Gloucester Township Fire District No. 4 maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, special revenue fund, capital projects fund, and the debt service fund. On December 31, 2022 only the general fund had a balance.

The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Also, Gloucester Township Fire District No. 4 adopts an annual budget in accordance with N.J.S.A. 40A:14:78-3. Budgetary comparison schedules have been provided to demonstrate compliance with the budget.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The notes to financial statements are an integral part of the financial statements.

Government-wide Financial Analysis

As noted earlier, the net position may serve over time as a useful indicator of a government entity's financial position. In the case of the Gloucester Township Fire District No. 4, liabilities exceeded assets as of December 31, 2022 by \$1,614,911.33.

Approximately 44% of the District's assets as of December 31, 2022 reflects its net investment in capital assets (i.e., buildings and equipment) of \$1,612,329.15. The District uses these assets to provide fire-fighting services to the citizens of the Township; consequently, these assets are not available for future spending. There is a lease on a Spartan Rescue Pumper and a Pierce Enforcer Custom Pumper entered into during 2020 that are associated with the capital assets. Although the District's investment in its capital assets would be reported net of related debt, it should be noted that the resources needed to repay such debt would be provided from other sources, since the capital assets themselves cannot be used to liquidate such liabilities.

Government-wide Financial Analysis (Cont'd)

**TOWNSHIP OF GLOUCESTER FIRE DISTRICT NO. 4'S NET POSITION
DECEMBER 31,**

	<u>2022</u>	<u>2021</u>

Deferred Inflows of Resources		
Related to Pensions	321,591.00	944,142.00
Related to Other Post Employment Benefits	<u>810,773.00</u>	<u>613,624.00</u>
Total Deferred Inflow of Resources	<u>1,132,364.00</u>	<u>1,557,766.00</u>
Net Position:		
Net Investment in Capital Assets	362,257.45	356,781.81
Restricted	916,254.49	964,290.29
Unrestricted (Deficit)	<u>(2,893,423.27)</u>	<u>(2,970,427.92)</u>
Total Net Position (Deficit)	<u>\$ (1,614,911.33)</u>	<u>\$ (1,649,355.82)</u>

The net position as of December 31, 2022 and 2021 were deficits of (\$1,614,911.33) and (\$1,649,355.82), respectively.

Deferred outflows increased in total by \$173,436.86. This was because of increases of \$52,577.00 and \$120,859.86 from the Fire District's participation in the PERS pension plan, and from the Fire District's participation in other post-employment benefits, respectively.

Overall liabilities increased \$561,402.75. The main contributor to the increase is the net pension liability. Additionally, the Fire District added their building lease to the liabilities due to the implementation of GASB 87.

Government-wide Financial Analysis (Cont'd)

Deferred inflows of resources decreased in total by \$425,402.00. This was a result of a decrease of \$622,551.00 and an increase of \$197,149.00 from the Fire District's participation in the PERS pension plan, and from the Fire District's participation in other post-employment benefits, respectively.

A component of the Gloucester Township Fire District No. 4's net position, \$916,254.49 as of December 31, 2022, represents resources that are subject to external restrictions on how they may be used. Another component of net position is the net investment in capital assets. Net Investments in Capital Assets are reported net of accumulated depreciation/amortization, and outstanding lease liability balances. As of December 31, 2022, net investment in capital assets were \$362,257.45, an increase of \$5,475.64 from December 31, 2021. The third and final component of net position is unrestricted. This component represents resources and uses that do not meet the criteria of the aforementioned two components of net position. At the end of the current year, the Fire District's unrestricted net position was a deficit of (\$2,893,423.27). The deficit is a result of the Fire District's participation in the various pension plans and other post-employment benefits.

The following table provides an illustration of the impact of the Fire District's Net Position for the participation in the various pension plans on other post-employment benefits.

Table A-2
Statement of Net Position - Effect of Pension Related Items

	<u>December 31, 2022</u>	<u>December 31, 2021</u>	<u>Change</u>	<u>% Change</u>

Contribution (P.L. 1997, c.388)	42,592.00	46,000.00
Interest on Long-Term Debt	29,462.64	25,716.87
	<u>2,175,464.98</u>	<u>1,874,329.69</u>
Total Program Expenses		
Program Revenues:		
Charges for Services	37,916.31	32,507.06
Operating Grants and Contributions	37,792.84	107,309.23
	<u>75,709.15</u>	<u>139,816.29</u>
Net Program Expenses	<u>2,099,755.83</u>	<u>1,734,513.40</u>
General Revenues		
Taxes:		
Property Taxes, Levied for General Purposes	1,826,681.00	1,711,840.43
Taxes Levied for debt Service	191,964.00	191,964.00
Sale of Assets	37,525.00	
Unrestricted Investment Income	3,969.01	2,119.81
Miscellaneous Income	74,061.31	59,248.84
	<u>2,134,200.32</u>	<u>1,965,173.08</u>
Total General Revenues		
Change in Net Position	34,444.49	230,659.68
Net Position, January 1 (Deficit)	<u>(1,649,355.82)</u>	<u>(1,880,015.50)</u>
Net Position, December 31 (Deficit)	<u>\$ (1,614,911.33)</u>	<u>\$ (1,649,355.82)</u>

Property taxes constituted 91.35% of general revenues for 2022 and 96.88% of general revenues for 2021 in the above government-wide financial analysis.

Cost of operations and maintenance for 2022 comprised 88.07% of fire district expenses, with administration comprising 6.51%. In 2021 those numbers were 87.38% and 6.54% respectively.

Financial Analysis of the Government Funds

As stated earlier, The Gloucester Township Fire District No. 4 uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Fire District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government entity's net resources available for spending at the end of the year and as a useful measure of permitting a governmental unit to maintain cash flow in anticipation of tax collections.

As of December 31, 2022, and 2021, the Fire District's governmental funds reported combined ending fund balances of \$1,914,139.53 and \$1,927,590.92, respectively. This represents a decrease during 2022 in the amount of \$13,451.39 and a decrease during 2021 in the amount of \$1,251,360.02 over the prior years ending fund balance. The decrease in 2022 is the result of normal operations.

Included within the government funds of the Gloucester Township Fire District No. 4 is the capital projects fund, special revenue fund, and debt service fund. During the years ended December 31, 2022, the capital projects, special revenue, and debt service fund balances were \$0.00, \$0.00, and \$0.00 and 2021 \$0.00, \$0.00, and \$0.00 respectively.

The general fund is the main operating fund of the Gloucester Township Fire District No. 4. As of December 31, 2022, the total general fund balance was \$1,914,139.53, consisting of the unassigned general fund balance of \$813,688.92, amounts designated for the 2023 budget of \$184,196.12, restricted amounts of \$374,000.00 for future capital outlays and length of services awards program amounts of \$542,254.49. As of December 31, 2021, the total general fund balance was \$1,927,590.92, consisting of the unassigned general fund balance of \$807,961.78, amounts designated for the 2022 budget of \$155,338.85, and restricted amounts of \$326,000.00 for future capital outlays and length of services awards program amounts of \$638,290.29.

Key factors are as follows:

2022

- The District sold an old vehicle that was not budgeted for.
- The District budgeted for and purchased a new support vehicle.
- The District budgeted for a grant expense that was not required.
- The District budgeted for future capital outlays that were restricted at year end.
- The District budgeted for a temporary secretary that was not utilized.

2021

- The District over budgeted for professional services and office expenses.
- The District budgeted for additional personnel costs that were not required.
- The District budgeted for utilities and uniforms that were not required.
- The District budgeted for reimbursements that were not required.
- The District budgeted for new fire and computer equipment that were not utilized.
- The District budgeted for maps/compressors and air packs/hoses that were not utilized.

General Fund Budgetary Highlights

During the course of the 2022 and 2021 years, the Fire District modified its general fund budget in conformance with the statute.

The key items of variance from the original budget are indicated above.

The final budgetary basis revenue estimate for 2022 was \$1,936,800.15 and the final for 2021 was \$1,819,660.06.

During 2022, the Fire District budgeted \$1,826,680.52 for local property taxes, \$4,450.00 for state aid, \$66,769.63 for other miscellaneous revenues including \$65,769.63 in shared services and \$1,000.00 from interest on investments, and miscellaneous revenues offset by appropriations of \$30,500.00

During 2021, the Fire District budgeted \$1,711,840.43 for local property taxes, \$4,450.00 for state aid, \$37,700.00 for miscellaneous revenues offset by appropriations, and \$65,669.63 for other miscellaneous revenues including \$51,669.63 in shared services, \$10,000 for the sale of a vehicle and \$4,000.00 from interest on investments.

Capital Assets

The Fire District's investment in capital assets for its governmental activities as of December 31, 2022, amounts to \$1,612,329.15 net of accumulated depreciation and amortization. This investment in capital assets includes building improvements, vehicles, firefighting equipment, and right of use assets. In 2022, the Fire District implemented GASB 87 which required the Fire District to record material lease agreements as right to use assets in the capital assets. They are amortized over the life of the lease agreement.

TOWNSHIP OF GLOUCESTER FIRE DISTRICT NO. 4'S CAPITAL ASSETS (NET OF ACCUMULATED DEPRECIATION) DECEMBER 31,

	<u>2022</u>	<u>2021</u>
Building and Improvements	\$ 181,037.35	\$ 177,094.75
Vehicles	1,257,026.47	1,370,487.36
Firefighting Equipment	10,186.08	61,121.27
Office Equipment		459.03
Right of Use Asset - Building	164,079.25	
Total	<u>\$ 1,612,329.15</u>	<u>\$ 1,609,162.41</u>

Additional information on the Fire District's capital assets can be found in Note 5 – Capital Assets in the notes to financial statements.

Long-term Obligations

For the years 2022 and 2021, the Fire District had no bonded debt. During the year ended December 31, 2020, the Fire District entered into financed purchase agreements for two fire trucks with a principal balance totaling \$1,416,838.24. A principal and interest payment of \$169,520.68 and \$22,443.32 were made through the Debt Service Fund during 2022. The principal balance of the lease agreements at the end of 2022 is \$1,082,859.92 and there is \$172,558.58 that is due within one year.

In 2022 the Fire District Implemented GASB 87, Leases. The Fire District had one material lease that was required to be reported under GASB 87 for their building space rental. The lease liability totaled \$167,211.78 at December 31, 2022, and \$81,999.26 is due within one year.

Compensated Absences - In accordance with the labor agreement, the Fire District recognized a liability for compensated absences on December 31, 2022 and December 31, 2021 in the amounts of \$124,877.88 and \$128,452.35, respectively. This liability represents the Fire District's contractual obligation to compensate employees for accumulated unused sick leave, vacations, personal and other compensated time.

Net Pension Liability - The Fire District's annual required contribution to the pension systems are budgeted and paid on an annual basis. For additional details on the net pension liability, see the notes to the financial statements, note 7.

Other Post-Employment Benefits – The Fire District's annual required contribution to other post-employment benefits are budgeted and paid on an annual basis. For additional details on the net other post-employment benefits liability, see the notes to the financial statements, note 9.

Requests for Information

This financial report is designed to provide a general overview of the Gloucester Township Fire District No. 4's finances for all of those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to John McCann, Fire Commissioner at 14 West Central Avenue, Blackwood, NJ 08012.

TOWNSHIP OF GLOUCESTER FIRE DISTRICT NO. 4
 Reconciliation of the Statement of Revenues, Expenditures,
 and Changes in Fund Balances of Governmental Funds
 to the Statement of Activities
 For the Year Ended December 31, 2022

Total Net Change in Fund Balances - Governmental Funds	\$	(13,451.39)
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
<p>Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation and amortization expense. This is the amount by which capital outlays exceeded depreciation in the period.</p>		
Depreciation and Amortization Expense	\$ (303,953.00)	
Capital Outlays	<u>324,340.08</u>	20,387.08
<p>Capital Assets are depreciated over their determined useful lives. In some cases assets are retired before they have been fully depreciated. This causes an expenditure to be recorded on the statement of activities for the remaining undepreciated asset amount.</p>		
		(17,220.34)
<p>Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.</p>		
		248,427.83
<p>Proceeds from debt issues are a financing source in the governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net assets.</p>		
		(246,118.93)
<p>Governmental funds report certain activity related to the length of service awards program as restricted revenues and expenditures, whereas such activity is a component of the length of service awards program liability reported on the statement of net position.</p>		
		96,035.70
<p>In the statement of activities, certain operating expenses, (e.g., compensated absences, pension), are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).</p>		
		(86,971.46)
<p>Revenue recognized from non-employer special funding situations with pension plans (long-term liability) is not recognized as revenue in the fund financial statements but is recognized as revenue from contributions in the statement of activities.</p>		
		<u>33,356.00</u>
Change in Net Position of Governmental Activities	\$	<u><u>34,444.49</u></u>

The accompanying Notes to Financial Statements are an integral part of this statement.

TOWNSHIP OF GLOUCESTER FIRE DISTRICT NO. 4

Notes to Financial Statements
For the Year Ended December 31, 2022

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Township of Gloucester Fire District No. 4 (the "Fire District") have been prepared to conform with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant of these policies.

Description of the Financial Reporting Entity

The Fire District is a political subdivision of the Township of Gloucester (the "Township"), Camden County, New Jersey. The Township is comprised of an area of approximately 23.26 square miles. It is bounded by the Boroughs of Runnemede and Magnolia to the north, the County of Gloucester County to the west, the Township of Winslow to the south and the Boroughs of Somerdale, Stratford, Hi-Nella, Lindenwold, Pine Hill, and Clementon on the east. As of the 2020 United States Census, the Township's population was 66,034. The Fire District was formed in January of 1956 through the adoption of a Township ordinance. A board of five commissioners oversees all operations of the Fire District. The length of each commissioner's term is three years following the vote held at the annual election.

Fire Districts are governed by N.J.S.A. 40A:14-70 et al. and are organized as a taxing authority charged with the responsibility of providing the resources necessary to provide firefighting services to the residents within its territorial location. The Fire District has one fire company within its jurisdiction, the Blackwood Fire Company.

The primary criterion for including activities within the Fire District's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board *Codification of Governmental Accounting and Financial Reporting Standards*, is the degree of oversight responsibility maintained by the Fire District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The financial statements include all funds of the Fire District over which the Board of Commissioners exercises operating control.

Government-wide and Fund Financial Statements

The Fire District's basic financial statements consist of government-wide statements and fund financial statements which provide a more detailed level of financial information.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. The Fire District's operations consist of governmental activities, which normally are supported by property taxes and intergovernmental revenues. The Fire District has no business-type activities, which rely to a significant extent on fees and charges for support. If the Fire District had business-type activities, such activities would be reported separately from governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the Fire District to not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Government-wide and Fund Financial Statements (Cont'd)**

In regard to the fund financial statements, the Fire District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the Fire District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Property taxes (ad valorem) are recognized as revenues in the year for which they are levied, as under New Jersey State Statute, a municipality is required to remit to its fire district the entire balance of taxes in the amount certified, prior to the end of the fire district year. The Fire District records the entire approved tax levy as revenue (accrued) at the start of the year since the revenue is both measurable and available. The Fire District is entitled to receive moneys under the following established payment schedule: on or before April 1, an amount equaling 21.25% of all moneys assessed; on or before July 1, an amount equaling 22.5% of all moneys assessed; on or before October 1, an amount equaling 25% of all moneys assessed; and on or before December 31, an amount equaling the difference between the total of all moneys so assessed and the total amount of moneys previously paid over.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are deemed both available and measurable. Available means when revenues are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Fire District considers revenues to be available if they are collected within sixty (60) days of the end of the current year. Measurable means that the amount of revenue can be determined. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, reimbursable-type grants, and interest associated with the current year are all considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenue items are considered to be measurable and available only when cash is received by the Fire District.

The Fire District reports the following major governmental funds:

General Fund - The general fund is the primary operating fund of the Fire District. It is used to account for all financial resources except those required to be accounted for in another fund. The acquisition of certain capital assets, such as firefighting apparatus and equipment, is accounted for in the general fund when it is responsible for the financing of such expenditures.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Capital Projects Fund - The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The financial resources are derived from temporary notes and general obligation bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Measurement Focus, Basis of Accounting and Financial Statement Presentation (Cont'd)**

The Fire District reports the following major governmental funds (cont'd):

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes.

Budgets / Budgetary Control

The Fire District must adopt an annual budget in accordance with N.J.S.A. 40A:14-78.1 et al. The fire commissioners must introduce and approve the annual budget not later than sixty days prior to the third Saturday in February. At introduction, the commissioners shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper having substantial circulation in the Fire District. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the fire commissioners may, by majority vote, adopt the budget.

Amendments may be made to the Fire District budget in accordance with N.J.S.A. 40A:14-78.3. The budget may not be amended subsequent to its final adoption and approval, except for provisions allowed by N.J.S.A. 40A:14-78.5.

Subsequent to the adoption of the Fire District budget, the amount of money to be raised by taxation in support of the Fire District budget must appear on the ballot for the annual election held on the third Saturday in February for approval of the legal voters.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at year-end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on exhibit C-1 and exhibit I-3, includes all amendments and modifications to the adopted budget as approved by the Board of Commissioners.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule, to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances - governmental funds. Note that the Fire District does not report encumbrances outstanding at year end as expenditures in the general fund since the general fund budget follows modified accrual basis of accounting.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Encumbrances**

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to assign a portion of the applicable appropriation, is utilized for budgetary control purposes. Encumbrances are a component of fund balance at year-end as they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services. Open encumbrances in the governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the Fire District has received advances of grant awards, are reflected on the balance sheet as unearned revenues at year-end.

The encumbered appropriation authority carries over into the next year. An entry will be made at the beginning of the next year to increase the appropriation reflected in the adopted budget by the outstanding encumbrance amount as of the current year end.

Cash, Cash Equivalents and Investments

Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey fire districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 40A:5-15.1 provides a list of permissible investments that may be purchased by New Jersey fire districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

Inventories

Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out method.

The cost of inventories in the governmental fund financial statements is recorded as expenditures when purchased rather than when consumed.

Inventories recorded on the government-wide financial statements are recorded as expenses when consumed rather than when purchased.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Prepaid Expenses**

Prepaid expenses recorded on the government-wide financial statements represent payments made to vendors for services that will benefit periods beyond December 31, 2022. At December 31, 2022, prepaid expenses in the amount of \$28,293.38 existed related to the prepayment of insurance.

In the governmental fund financial statements, however, payments for prepaid items are fully recognized as expenditures in the year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (*non-allocation method*). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

Short-Term Interfund Receivables / Payables

Short-term interfund receivables / payables (internal balances) represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund within the Fire District, and that are due within one year. Such balances are eliminated in the statement of net position to minimize the grossing up of internal balances.

Capital Assets

Capital assets represent the cumulative amount of capital assets used by the Fire District. Purchased capital assets are recorded as expenditures in the governmental fund financial statements and are capitalized at cost on the government-wide statement of net position. Intangible right to use assets (lease assets) are recorded as expenditures in the governmental fund financial statements. Lease assets are measured on the government-wide statement of net position at the amount of the initial measurement of the related lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs. In the case of gifts or contributions, such capital assets are recorded at acquisition value at the time received.

The Fire District's capitalization threshold is \$5,000.00. Other costs incurred for repairs and maintenance are expensed as incurred. All reported capital assets, except land and construction in progress, are depreciated. Amortization on lease assets and depreciation on other capital assets is computed using the straight-line method over the shorter of the lease term or the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	30 Years
Vehicles	5 - 15 Years
Firefighting Equipment	5 Years
Office Equipment	5 Years

The Fire District does not possess any infrastructure assets.

Deferred Outflows and Deferred Inflows of Resources

The statement of net position reports separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources, reported after total assets, represents a reduction of net position that applies to a future period(s) and will be recognized as an outflow of resources (expense) at that time. Deferred inflows of resources, reported after total liabilities, represents an acquisition of net position that applies to a future period(s) and will be recognized as an inflow of resources (revenue) at that time.

Transactions are classified as deferred outflows of resources and deferred inflows of resources only when specifically prescribed by the Governmental Accounting Standards Board (GASB) standards. The Fire District is required to report the following as deferred outflows of resources and deferred inflows of resources: defined benefit pension plans and postemployment benefit plans.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Unearned Revenue**

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied and is recorded as a liability until the revenue is both measurable and the Fire District is eligible to realize the revenue.

Compensated Absences

Compensated absences are payments to employees for accumulated time such as paid vacation, paid holidays, sick pay, and sabbatical leave. A liability for compensated absences that is attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the Fire District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the Fire District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The Fire District uses the vesting method to calculate the compensated absences amount. The entire compensated absence liability, including the employer's share of applicable taxes, is reported on the government-wide financial statements. The current portion is the amount estimated to be used in the following year. Expenditures are recognized in the governmental funds as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner, and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension and length of service awards program contributions that will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the governmental fund financial statements when due.

Net Position

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net Investment in Capital Assets - This component represents capital assets, net of accumulated depreciation or amortization of intangible capital assets, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted - Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Fire District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Unrestricted - Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The Fire District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Fund Balance**

The Fire District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the Fire District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The Fire District's classifications, and policies for determining such classifications, are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted - The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Fire District's highest level of decision-making authority, which, for the Fire District, is the Board of Fire Commissioners. Such formal action consists of an affirmative vote by the Board of Fire Commissioners, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Fire Commissioners removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned - The assigned fund balance classification includes amounts that are constrained by the Fire District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Fire Commissioners or by the accountant, to which the Board of Fire Commissioners has delegated the authority to assign amounts to be used for specific purposes. Such authority of the accountant is established by way of a formal job description for the position, approved by the Board of Fire Commissioners.

Unassigned - The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the Fire District to spend restricted fund balances first. Moreover, when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the Fire District to spend fund balances, if appropriate, in the following order: committed, assigned, and then unassigned.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Interfund Activity**

Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources / uses in governmental funds. Reimbursements from funds responsible for particular expenditures / expenses to the funds that initially paid for them are not presented on the financial statements.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Impact of Recently Issued Accounting Principles**Recently Issued and Adopted Accounting Pronouncements**

The Fire District implemented the following GASB Statement for the year ended December 31, 2022:

Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

Because of the implementation of GASB Statement No. 87, the Fire District has determined that lease agreements in the prior year formerly reported and / or disclosed have now been reported and disclosed in accordance with the Statement (notes 5 and 6).

Recently Issued Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued the following statements that have effective dates that may affect future financial presentations:

Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset, an intangible asset, and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The Statement will become effective for the Fire District's year ending December 31, 2023. Management is currently evaluating whether or not this Statement will have an impact on the basic financial statements of the Fire District.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**Impact of Recently Issued Accounting Principles (Cont'd)****Recently Issued Accounting Pronouncements (Cont'd)**

Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The Statement will become effective for the Fire District in the year ending December 31, 2024. Management is currently evaluating whether or not this Statement will have an impact on the basic financial statements of the Fire District.

Note 2: CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the Fire District's deposits might not be recovered. Although the Fire District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). Under the Act, the first \$250,000.00 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation ("FDIC"). Public funds owned by the Fire District in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled agency funds such as salary withholdings or funds that may pass to the Fire District relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized. Of the Fire District's amount on deposit of \$1,506,350.71, as of December 31, 2022, \$250,000.00 was insured under FDIC and \$1,256,350.71 was insured under GUDPA.

Note 3: PROPERTY TAX LEVIES

The following is a tabulation of the Fire District's assessed valuations, tax levies, and property tax rates per \$100.00 of assessed valuations for the current and preceding four years:

<u>Year</u>	<u>Assessed Valuation</u>	<u>Total Tax Levy</u>	<u>Tax Rate</u>
2022	\$ 716,201,700.00	\$ 2,018,645.00	\$ 0.283
2021	717,250,300.00	1,903,804.43	0.266
2020	653,519,500.00	1,690,116.00	0.259
2019	650,619,600.00	1,618,919.00	0.249
2018	642,220,700.00	1,548,265.00	0.242

Note 4: ACCOUNTS RECEIVABLE

Accounts receivable at December 31, 2022 consisted of amounts owed from individuals and businesses located within the jurisdiction of the Fire District for various fees related to uniform fire safety inspections, penalties, and registrations, and from emergency medical service billings. All receivables are considered collectible.

Note 4: ACCOUNTS RECEIVABLE (CONT'D)

Accounts receivable as of year-end for the Fire District's individual major funds, in the aggregate, is as follows:

	General Fund	Total Governmental Activities
Intergovernmental:		
Accounts Receivable -Other	\$ 1,138.28	\$ 1,138.28
Total	<u>\$ 1,138.28</u>	<u>\$ 1,138.28</u>

Note 5: CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2022 is as follows:

	Balance Jan. 1, 2022	Increases	Decreases	Balance Dec. 31, 2022
Capital Assets, being Depreciated and Amortized:				
Building Improvements	\$ 284,139.81	\$ 19,000.00		\$ 303,139.81
Vehicles	2,924,296.68	52,931.15	\$ (341,636.28)	2,635,591.55
Lease Assets - Building		246,118.93		246,118.93
Fire Equipment	342,436.81	6,290.00		348,726.81
Office Equipment	6,885.45			6,885.45
Total Capital Assets, being Depreciated and Amortized	<u>3,557,758.75</u>	<u>324,340.08</u>	<u>(341,636.28)</u>	<u>3,540,462.55</u>
Less Accumulated Depreciation and Amortization for:				
Building Improvements	(107,045.06)	(15,057.40)		(122,102.46)
Vehicles	(1,553,809.32)	(149,171.70)	324,415.94	(1,378,565.08)
Lease Assets - Building		(82,039.68)		(82,039.68)
Fire Equipment	(281,315.54)	(57,225.19)		(338,540.73)
Office Equipment	(6,426.42)	(459.03)		(6,885.45)
Total Accumulated Depreciation and Amortization	<u>(1,948,596.34)</u>	<u>(303,953.00)</u>	<u>324,415.94</u>	<u>(1,928,133.40)</u>
Total Capital Assets, being Depreciated, and Amortized, Net	<u>1,609,162.41</u>	<u>20,387.08</u>	<u>(17,220.34)</u>	<u>1,612,329.15</u>
Capital Assets, Net	<u>\$ 1,609,162.41</u>	<u>\$ 20,387.08</u>	<u>\$ (17,220.34)</u>	<u>\$ 1,612,329.15</u>

Note 5: CAPITAL ASSETS (CONT'D)

* Depreciation and amortization expense was charged to functions / programs of the Fire District as follows:

Administration	\$ 791.76
Cost of Operations and Maintenance	<u>303,161.24</u>
Total Depreciation and Amortization Expense	<u>\$ 303,953.00</u>

Note 6: LONG-TERM LIABILITIES

During the year ended December 31, 2022, the following changes occurred in long-term obligations for governmental activities:

	<u>Balance</u> <u>January 01, 2022</u>	<u>Additions</u>	<u>Deductions</u>	<u>Balance</u> <u>December 31, 2022</u>	<u>Due within</u> <u>One Year</u>
Other Liabilities:					
Lease Liability		\$ 246,118.93	\$ (78,907.15)	\$ 167,211.78	\$ 81,999.26
Financed Purchases	\$ 1,252,380.60		(169,520.68)	1,082,859.92	172,558.58
Compensated Absences	128,452.35	23,732.03	(27,306.50)	124,877.88	30,163.08
Length of Service Awards Program Liability	638,290.29	44,957.90	(140,993.60)	542,254.59	
Net Pension Liability	1,105,344.00	1,745,107.00	(1,113,358.00)	1,737,093.00	
Postemployment Benefits	1,534,841.00	1,394,444.00	(1,409,447.00)	1,519,838.00	
Total Other Liabilities	<u>4,659,308.24</u>	<u>3,454,359.86</u>	<u>(2,939,532.93)</u>	<u>5,174,135.17</u>	<u>284,720.92</u>
Governmental Activities Long-Term Liabilities	<u>\$ 4,659,308.24</u>	<u>\$ 3,454,359.86</u>	<u>\$ (2,939,532.93)</u>	<u>\$ 5,174,135.17</u>	<u>\$ 284,720.92</u>

Lease Liability - The general fund is responsible for budgeting and liquidating the liability associated with the lease liability.

Lease agreements are summarized as follows:

<u>Description</u>	<u>Payment</u> <u>Amount</u>	<u>Total Lease</u> <u>Liability</u>	<u>Balance</u> <u>January 1, 2022</u>	<u>Additions</u>	<u>Deductions</u>	<u>Balance</u> <u>December 31, 2022</u>	<u>Due Within</u> <u>One Year</u>
Building Space	\$ 78,907.15	\$ 246,118.93	\$ -	\$ 246,118.93	\$ (78,907.15)	\$ 167,211.78	\$ 81,999.26

The Fire District leased building space beginning on January 1, 2022 for a term of three years. The implied interest rate is based on the Fire District's estimated incremental borrowing rate of 3.850%.

Annual requirements to amortize lease obligations and related interest are as follows:

<u>Year Ending</u> <u>Dec. 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 81,999.26	\$ 5,000.74	\$ 87,000.00
2024	85,212.52	1,787.48	87,000.00
Total	<u>\$ 167,211.78</u>	<u>\$ 6,788.22</u>	<u>\$ 174,000.00</u>

Lease Liabilities are amortized in a manner consistent with the Fire District's depreciation policy for owned assets.

Note 6: LONG-TERM LIABILITIES (CONT'D)

Financed Purchases - The Fire District's payments on financed purchases are budgeted and paid from the debt service fund on an annual basis.

As of December 31, 2022, the Fire District is financing a Spartan Rescue Pumper and a Pierce Enforcer Custom Pumper in the amounts of \$703,675.24 and \$713,163.00, respectively. The agreements are for terms of eight (8) years with an interest rate of 1.792%. The final maturity of the financed purchases are August 23, 2028.

The following is a schedule of the remaining future minimum payments under the financed purchases, and the present value of the net minimum payments at December 31, 2022:

Year Ending Dec. 31,	Principal	Interest	Total
2023	\$ 172,558.58	\$ 19,405.42	\$ 191,964.00
2024	175,650.91	16,313.09	191,964.00
2025	178,798.68	13,165.32	191,964.00
2026	182,002.85	9,961.15	191,964.00
2027	185,264.43	6,699.57	191,964.00
2028	188,584.47	3,379.53	191,964.00
	<hr/>	<hr/>	<hr/>
Total	<u>\$ 1,082,859.92</u>	<u>\$ 68,924.08</u>	<u>\$ 1,151,784.00</u>

Financed purchases are depreciated in a manner consistent with the Fire District's depreciation policy for owned assets.

Compensated Absences - Compensated absences will be paid from the fund from which the employees' salaries are paid. Refer to note 12 for a description of the Fire District's policy.

Length of Service Awards Program Liability - For details on the length of service awards program liability, refer to note 8. The Fire District's annual required contribution to the length of service awards program is budgeted and paid from the general fund on an annual basis.

Net Pension Liability - For details on the net pension liability, refer to note 7. The Fire District's annual required contribution to the length of service awards program is budgeted and paid from the general fund on an annual basis.

Postemployment Benefits - For details on postemployment benefits, refer to note 9. The Fire District's required contribution to the postemployment benefits plan are budgeted and paid from the general fund.

Note 7: PENSION PLANS

A substantial number of the Fire District's employees participate in one of the following defined benefit pension plans: the Public Employees' Retirement System ("PERS") and the Police and Firemen's Retirement System ("PFRS"), which are administered by the New Jersey Division of Pensions and Benefits. In addition, certain Fire District employees may be eligible to participate in the Defined Contribution Retirement Program ("DCRP"), which is a defined contribution pension plan.] This Plan is administered by Empower (formerly Prudential Financial) for the New Jersey Division of Pensions and Benefits. Each Plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements, required supplementary information and detailed information about the PERS and PFRS plans' fiduciary net position which can be obtained by writing to or at the following website:

State of New Jersey
Division of Pensions and Benefits
P.O. Box 295
Trenton, New Jersey 08625-0295
<https://www.state.nj.us/treasury/pensions/financial-reports.shtml>

General Information about the Pension Plans**Plan Descriptions**

Public Employees' Retirement System - The Public Employees' Retirement System is a cost-sharing multiple-employer defined benefit pension plan, which was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A. The PERS' designated purpose is to provide retirement, death, disability and medical benefits to certain qualified members. Membership in the PERS is mandatory for substantially all full-time employees of the Fire District, provided the employee is not required to be a member of another state-administered retirement system or other state pensions fund or local jurisdiction's pension fund. The PERS' Board of Trustees is primarily responsible for the administration of the PERS.

Police and Firemen's Retirement System - The Police and Firemen's Retirement System is a cost-sharing multiple-employer defined benefit pension plan, which was established as of July 1, 1944, under the provisions of N.J.S.A. 43:16A. The PFRS' designated purpose is to provide retirement, death, disability and medical benefits to certain qualified members. Membership in the PFRS is mandatory for substantially all full-time police and firemen of the Fire District. The PFRS' Board of Trustees is primarily responsible for the administration of the PFRS.

Defined Contribution Retirement Program - The Defined Contribution Retirement Program is a multiple-employer defined contribution pension fund established on July 1, 2007 under the provisions of P.L. 2007, c. 92 and P.L. 2007, c. 103, and expanded under the provisions of P.L. 2008, c. 89 and P.L. 2010, c. 1. The DCRP is a tax-qualified defined contribution money purchase pension plan under Internal Revenue Code (IRC) § 401(a) et seq., and is a "governmental plan" within the meaning of IRC § 414(d).

The DCRP provides retirement benefits for eligible employees and their beneficiaries. Individuals covered under DCRP are employees enrolled in PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees enrolled in New Jersey State Police Retirement System (SPRS) or the Police and Firemen's Retirement System (PFRS) after May 21, 2010, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least \$5,000.00 annually; and employees otherwise eligible to enroll in PERS after May 21, 2010 who do not work the minimum number of hours per week required for tiers 4 or 5 enrollment, but who earn salary of at least \$5,000.00 annually.

Note 7: PENSION PLANS (CONT'D)**General Information about the Pension Plans (Cont'd)****Vesting and Benefit Provisions**

Public Employees' Retirement System - The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

Tier Definition

- 1 Members who were enrolled prior to July 1, 2007
- 2 Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
- 3 Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
- 4 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 5 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Police and Firemen's Retirement System - The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement, death and disability benefits. All benefits vest after 10 years of service, except disability benefits, which vest after four years of service.

The following represents the membership tiers for PFRS:

Tier Definition

- 1 Members who were enrolled prior to May 22, 2010
- 2 Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
- 3 Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

Note 7: PENSION PLANS (CONT'D)**General Information about the Pension Plans (Cont'd)****Vesting and Benefit Provisions**

Defined Contribution Retirement Program - Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 401(a), a noncontributory group life insurance plan and a noncontributory group disability benefit plan. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employee contributions shall immediately become and shall at all times remain fully vested and non-forfeitable. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employer contributions shall be vested and non-forfeitable on the date the participant commences the second year of employment or upon his or her attainment of age 65, while employed by an employer, whichever occurs first.

Contributions

Public Employees' Retirement System - The contribution policy is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Pursuant to the provisions of P.L. 2011, C. 78, the member contribution rate is currently 7.50% of base salary, effective July 1, 2018. The rate for members who are eligible for the Prosecutors Part of PERS (P.L. 2001, C. 366) is 10.0%. Employers' contributions are based on an actuarially determined amount, which includes the normal cost and unfunded accrued liability.

Special Funding Situation Component - Under N.J.S.A. 43:15A, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. One of such legislations, which legally obligate the State, is Chapter 133, P.L. 2001. This legislation increased the accrual rate from 1/60 to 1/55. In addition, it lowered the age required for a veteran benefit equal to 1/55 of highest 12-month compensation for each year of service from 60 to 55. Chapter 133, P.L. 2001 also established the Benefit Enhancement Fund (BEF) to fund the additional annual employer normal contribution due to the State's increased benefits. If the assets in the BEF are insufficient to cover the normal contribution for the increased benefits for a valuation period, the State will pay such amount for both the State and local employers.

The Fire District's contractually required contribution rate for the year ended December 31, 2022 was 16.77% of the Fire District's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

Based on the most recent PERS measurement date of June 30, 2022, the Fire District's contractually required contribution to the pension plan for the year ended December 31, 2022 is \$9,410.00, and is payable by April 1, 2023. For the prior year measurement date of June 30, 2021, the Fire District's contractually required contribution to the pension plan for the year ended December 31, 2021 was \$8,151.00, which was paid on April 1, 2022.

Employee contributions to the Plan for the year ended December 31, 2022 were \$4,207.52.

Note 7: PENSION PLANS (CONT'D)**General Information about the Pension Plans (Cont'd)****Contributions (Cont'd)****Public Employees' Retirement System (Cont'd) -**

The amount of contractually required contribution for the State of New Jersey's proportionate share, associated with the Fire District, under Chapter 133, P.L. 2001, for the year ended December 31, 2022 was .44% of the Fire District's covered payroll.

Based on the most recent PERS measurement date of June 30, 2022, the State's contractually required contribution, under Chapter 133, P.L. 2001, on-behalf of the Fire District, to the pension plan for the year ended December 31, 2022 was \$56,100.00, and is payable by April 1, 2023.

Police and Firemen's Retirement System - The contribution policy for PFRS is set by N.J.S.A 43:16A and requires contributions by active members and contributing employers. Pursuant to the provisions of P.L. 2011, C. 78, the member contribution rate is currently 10.0% of base salary. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability.

Special Funding Situation Component - Under N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation, which legally obligates the State, is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The amounts contributed on behalf of the local participating employers under this legislation is considered to be a *special funding situation* as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute under this legislation directly to the Plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to disclose in the notes to the financial statements of the local participating employers related to this legislation.

The Fire District's contractually required contribution rate for the year ended December 31, 2022 was 30.28% of the Fire District's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Based on the most recent PFRS measurement date of June 30, 2022, the Fire District's contractually required contribution to the pension plan for the year ended December 31, 2022 is \$184,576.00, and is payable by April 1, 2023. For the prior year measurement date of June 30, 2021, the Fire District's contractually required contribution to the pension plan for the year ended December 31, 2021 was \$163,103.00, which was paid on April 1, 2022. Employee contributions to the Plan for the year ended December 31, 2022 were \$60,966.00.

The amount of contractually required contribution for the State of New Jersey's proportionate share, associated with the Fire District, for the year ended December 31, 2022 was 5.90% of the Fire District's covered payroll.

Based on the most recent PFRS measurement date of June 30, 2022, the State's contractually required contribution, on-behalf of the Fire District, to the pension plan for the year ended December 31, 2022 was \$35,993.00, and is payable by April 1, 2023. For the prior year measurement date of June 30, 2021, the State's contractually required contribution, on-behalf of the Fire District, to the pension plan for the year ended December 31, 2021 was \$24,991.00, which was paid on April 1, 2022.

Note 7: PENSION PLANS (CONT'D)**Contributions (Cont'd)**

Defined Contribution Retirement Program - The contribution policy is set by N.J.S.A. 43:15C-3 and requires contributions by active members and contributing employers. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, Plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the Fire District contributes 3% of the employees' base salary, for each pay period.

For the year ended December 31, 2022, the Fire District had no employees enrolled in the program.

Pension Liabilities, Pension (Benefit) Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**Public Employees' Retirement System**

Pension Liability - As of December 31, 2022, there is no net pension liability associated with the special funding situation under Chapter 133, P.L. 2001, as there was no accumulated difference between the annual additional normal cost and the actual State contribution through the valuation date. The Fire District's proportionate share of the PERS net pension liability was \$112,613.00. The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2022. The Fire District's proportion of the net pension liability was based on a projection of the Fire District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. For the June 30, 2022 measurement date, the Fire District's proportion was .0007462047%, which was an increase of .0000502020% from its proportion measured as of June 30, 2021.

Pension (Benefit) Expense - For the year ended December 31, 2022, the Fire District's proportionate share of the PERS pension (benefit) expense, calculated by the Plan as of the June 30, 2022 measurement date, was (\$24,849.00).

Police and Firemen's Retirement System

Pension Liability - As of December 31, 2022, the Fire District's and State of New Jersey's proportionate share of the PFRS net pension liability were as follows:

Proportionate Share of Net Pension Liability	\$ 1,624,480.00
State of New Jersey's Proportionate Share of Net Pension Liability Associated with the Employer	289,110.00
	<u>\$ 1,913,590.00</u>

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2022. The Fire District's proportion of the net pension liability was based on a projection of the Fire District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the State of New Jersey, actuarially determined. For the June 30, 2022 measurement date, the Fire District's proportion was .0141921100%, which was an increase of .0001974301% from its proportion measured as of June 30, 2021. Likewise, as of June 30, 2022 the State of New Jersey's proportion, on-behalf of the Fire District, was .0141922100%, which was an increase of .0001976866% from its proportion, on-behalf of the Fire District, measured as of June 30, 2021.

Note 7: PENSION PLANS (CONT'D)**Pension Liabilities, Pension (Benefit) Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)****Police and Firemen's Retirement System (Cont'd)**

Pension (Benefit) Expense - For the year ended December 31, 2022, the Fire District's proportionate share of the PFRS pension (benefit) expense, calculated by the Plan as of the June 30, 2022 measurement date, was \$186,864.00.

For the year ended December 31, 2022, the State's proportionate share of the PFRS pension (benefit) expense, associated with the Fire District, calculated by the Plan as of the June 30, 2022 measurement date, was \$33,356.00. This on-behalf expense has been recognized by the Fire District in the government-wide financial statements.

Deferred Outflows of Resources and Deferred Inflows of Resources - As of December 31, 2022, the Fire District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources		
	<u>PERS</u>	<u>PFRS</u>	<u>Total</u>	<u>PERS</u>	<u>PFRS</u>	<u>Total</u>
Differences between Expected and Actual Experience	\$ 813.00	\$ 73,528.00	\$ 74,341.00	\$ 717.00	\$ 99,521.00	\$ 100,238.00
Changes of Assumptions	349.00	4,452.00	4,801.00	16,863.00	204,490.00	221,353.00
Net Difference between Projected and Actual Earnings on Pension Plan Investments	4,661.00	148,755.00	153,416.00	-	-	-
Changes in Proportion and Differences between Contributions and Proportionate Share of Contributions	16,899.00	389,502.00	406,401.00	-	-	-
Contributions Subsequent to the Measurement Date	4,705.00	92,288.00	96,993.00	-	-	-
	<u>\$ 27,427.00</u>	<u>\$ 708,525.00</u>	<u>\$ 735,952.00</u>	<u>\$ 17,580.00</u>	<u>\$ 304,011.00</u>	<u>\$ 321,591.00</u>

Deferred outflows of resources in the amounts of \$4,705.00 and \$92,288.00 for PERS and PFRS, respectively, will be included as a reduction of the net pension liability during the year ending December 31, 2023. These amounts were based on an estimated April 1, 2024 contractually required contribution, prorated from the pension plans' measurement date of June 30, 2022 to the Fire District's year end of December 31, 2022.

Note 7: PENSION PLANS (CONT'D)**Pension Liabilities, Pension (Benefit) Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Cont'd)**

Deferred Outflows of Resources and Deferred Inflows of Resources (Cont'd) - The Fire District will amortize the other deferred outflows of resources and deferred inflows of resources related to pensions over the following number of years:

	PERS		PFRS	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources

Thereafter	-	1,978.00	1,978.00
	<u>\$ 5,142.00</u>	<u>\$ 312,226.00</u>	<u>\$ 317,368.00</u>

Actuarial Assumptions

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability, was determined by an actuarial valuation as of July 1, 2021. The total pension liability was calculated through the use of updated procedures to roll forward from the actuarial valuation date to the measurement date of June 30, 2022. This actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

	<u>PERS</u>	<u>PFRS</u>
Inflation Rate:		
Price	2.75%	2.75%
Wage	3.25%	3.25%
Salary Increases:	2.75% - 6.55%	3.25% - 16.25%
	Based on Years of Service	Based on Years of Service
Investment Rate of Return	7.00%	7.00%
Period of Actuarial Experience Study upon which Actuarial Assumptions were Based	July 1, 2018 - June 30, 2021	July 1, 2018 - June 30, 2021

Note 7: PENSION PLANS (CONT'D)**Actuarial Assumptions (Cont'd)****Public Employees' Retirement System**

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

Police and Firemen's Retirement System

Pre-retirement mortality rates were based on the PubS-2010 amount-weighted mortality table with a 105.6% adjustment for males and 102.5% adjustment for females. For healthy annuitants, mortality rates were based on the PubS-2010 amount-weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females. Disability rates were based on the PubS-2010 amount-weighted mortality table with a 152.0% adjustment for males and 109.3% adjustment for females. Mortality improvement is based on Scale MP-2021.

For both PERS and PFRS, in accordance with State statute, the long-term expected rate of return on Plan investments (7.00% at June 30, 2022) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS' and PFRS' target asset allocation as of June 30, 2022 are summarized in the table that follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	27.00%	8.12%
Non-US Developed Markets Equity	13.50%	8.38%
Emerging Market Equity	5.50%	10.33%
Private Equity	13.00%	11.80%
Real Estate	8.00%	11.19%
Real Assets	3.00%	7.60%
High Yield	4.00%	4.95%
Private Credit	8.00%	8.10%
Investment Grade Credit	7.00%	3.38%
Cash Equivalents	4.00%	1.75%
U.S. Treasuries	4.00%	1.75%
Risk Mitigation Strategies	3.00%	4.91%
	<u>100.00%</u>	

Note 7: PENSION PLANS (CONT'D)**Actuarial Assumptions (Cont'd)****Discount Rate -**

Public Employees' Retirement System - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity would be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all projected benefit payments to determine the total pension liability.

Police and Firemen's Retirement System - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of Proportionate Share of Net Pension Liability to Changes in the Discount Rate

Public Employees' Retirement System (PERS) - The following presents the Fire District's proportionate share of the net pension liability as of the June 30, 2022 measurement date, calculated using a discount rate of 7.00%, as well as what the Fire District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rates used:

	1% Decrease <u>(6.00%)</u>	Current Discount Rate <u>(7.00%)</u>	1% Increase <u>(8.00%)</u>
Proportionate Share of the Net Pension Liability	\$ 144,674.00	\$ 112,613.00	\$ 85,327.00

Note 7: PENSION PLANS (CONT'D)**Sensitivity of Proportionate Share of Net Pension Liability to Changes in the Discount Rate (Cont'd)**

Police and Firemen's Retirement System (PFRS) - As previously mentioned, PFRS has a special funding situation, where the State of New Jersey pays a portion of the Fire District's annual required contribution. As such, the net pension liability as of the June 30, 2022 measurement date for the Fire District and the State of New Jersey, calculated using a discount rate of 7.00%, as well as using a discount rate that is 1% lower or 1% higher than the current rates used, is as follows:

	1% Decrease <u>(6.00%)</u>	Current Discount Rate <u>(7.00%)</u>	1% Increase <u>(8.00%)</u>
Proportionate Share of the Net Pension Liability	\$ 2,228,961.00	\$ 1,624,479.00	\$ 1,121,245.00
State of New Jersey's Proportionate Share of Net Pension Liability	<u>396,690.00</u>	<u>289,110.00</u>	<u>199,549.00</u>
	<u>\$ 2,625,651.00</u>	<u>\$ 1,913,589.00</u>	<u>\$ 1,320,794.00</u>

Pension Plan Fiduciary Net Position

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension (benefit) expense, information about the respective fiduciary net position of the PERS and PFRS and additions to/deductions from PERS' and PFRS' respective fiduciary net position have been determined on the same basis as they are reported by PERS and PFRS. Accordingly, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 8: LENGTH OF SERVICE AWARDS PROGRAM

Plan Description - The Fire District's length of service awards program (the "Plan"), which is a defined contribution plan reported in the Fire District's general fund, was created by a Fire District Resolution adopted on December 9, 1998 pursuant to Section 457(e)(11)(B) of the Internal Service Code of 1986, as amended, except for provisions added by reason of the length of service award program as enacted into federal law in 1997. The accumulated assets of the Plan are not administered through a trust that meets the criteria of paragraph 4 of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*.

The voters of the Fire District approved the adoption of the Plan at the annual election held on February 20, 1999, and the first year of eligibility for entrance into the length of service awards program by qualified volunteers was calendar year 1999. The Plan provides tax deferred income benefits to active volunteer firefighters, and is administered by Variable Annuity Life Insurance Company (VALIC) (Plan Administrator), a State of New Jersey approved length of service awards program provider. The Fire District's practical involvement in administering the Plan is essentially limited to verifying the eligibility of each participant and remitting the funds to the Plan Administrator.

The tax deferred income benefits for emergency service volunteers of the Blackwood Fire Company, consisting of the volunteer fire department, come from contributions made solely by the governing body of the Fire District, on behalf of those volunteers who meet the criteria of the Plan created by that governing body. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Note 8: LENGTH OF SERVICE AWARDS PROGRAM (CONT'D)

Plan Amendments - The Fire District may make minor amendments to the provisions of the Plan at any time, provided, however, that no amendment affects the rights of participants or their beneficiaries regarding vested accumulated deferrals at the time of the amendment. The Plan can only be amended by resolution of the governing body of the Fire District, and the following procedures must be followed: (a) any amendment to the Plan shall be submitted for review and approval by the Director of Local Government Services, State of New Jersey (the "Director") prior to implementation by the Fire District's governing body, provided, however, that any amendment required by the IRS, may be adopted by the Fire District's governing body without the advance approval of the Director (although such amendment shall be filed with the Director); (b) the documentation submitted to the Director shall identify the regulatory authority for the amendment and the specific language of the change; and (c) the Fire District shall adopt the amendment by resolution of the governing body, and a certified copy of the resolution shall be forwarded to the Director. The Fire District may amend the Plan agreement to accommodate changes in the Internal Revenue Code, Federal statutes, state laws or rules or operational experience. In cases of all amendments to the Plan, the Fire District shall notify all participants in writing prior to making any amendment to the Plan.

Contributions - If an active member meets the year of active service requirement, a length of service awards program must provide a benefit between the minimum contribution of \$100.00 and a maximum contribution of \$1,150.00 per year. While the maximum amount is established by statute, it is subject to periodic increases that are related to the consumer price index (N.J.S.A. 40A:14-185(f)). The Division of Local Government Services of the State of New Jersey will issue the permitted maximum annually.

The Fire District elected to contribute \$1,936.00 for the year ended December 31, 2022, per eligible volunteer, into the Plan, depending on how many years the volunteer has served. Participants direct the investment of the contributions into various investment options offered by the Plan. The Fire District has no authorization to direct investment contributions on behalf of eligible volunteers nor has the ability to purchase or sell investment options offered by the Plan. The types of investment options, and the administering of such investments, rests solely with the Plan Administrator.

For the year ended December 31, 2022, the Fire District's Plan expense, net of forfeitures of \$-0-, was \$42,592.00.

Participant Accounts - Each participant's account is credited with the Fire District's contribution and Plan earnings, and charged with administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Fire District has placed the amounts deferred, including earnings, in an account maintained by a third-party administrator for the exclusive benefit of the Plan participants and their beneficiaries. The contributions from the Fire District to the Plan, and the related earnings, are not irrevocable, and such funds are not legally protected from the creditors of the Fire District. These funds, however, are not available for funding the operations of the Fire District.

Vesting - The Fire District, in accordance with N.J.S.A. 40A:14-188 and N.J.A.C. 5:30-11.63 may make a yearly contribution to the length of service awards program account in the deferred income program for an active volunteer who has satisfied the requirements for receipt of an award, but the volunteer shall not be able to receive a distribution of the funds until the completion of a five year vesting period or be in accordance with changes to vesting conveyed through the issuance of a Local Finance Notice and/or publication of a public notice in the New Jersey Register, with payment of that benefit only being as otherwise permitted by the Plan.

Note 8: LENGTH OF SERVICE AWARDS PROGRAM (CONT'D)

Payment of Benefits - Upon separation from volunteer service, retirement or disability, termination of the Plan, participants may select various payout options of vested accumulated deferrals, which include lump sum, periodic, or annuity payments. In the case of death, with certain exceptions, any amount invested under the participant's account is paid to the beneficiary or the participant's estate.

In the event of an unforeseeable emergency, as outlined in the Plan document, a participant or a beneficiary entitled to vested accumulated deferrals may request the local plan administrator to payout a portion of vested accumulated deferrals.

Forfeited Accounts - For the year ended December 31, 2022, no accounts were forfeited.

Investments - The investments of the length of service awards program are recorded at fair value and investments offered to the participants include various variable annuities. The Fire District has classified these investments as restricted in the financial statements.

Plan Information - Additional information about the Fire District's length of service awards program can be obtained by contacting the Plan Administrator.

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS**General Information about the State Health Benefit Local Government Retired Employees Plan**

Plan Description and Benefits Provided - The Fire District contributes to the State Health Benefits Local Government Retired Employees Plan (the "Plan"), which is a cost-sharing multiple-employer defined benefit other postemployment benefit ("OPEB") plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. The Plan meets the definition of an equivalent arrangement as defined in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions* (GASB Statement No. 75); therefore, assets are accumulated to pay associated benefits. For additional information about the Plan, please refer to the State of New Jersey (the "State"), Division of Pensions and Benefits' (the "Division") annual financial statements, which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52:14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for their employees to qualify for State-paid retiree health benefits coverage under Chapter 330. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (CONT'D)**General Information about the State Health Benefit Local Government Retired Employees Plan (Cont'd)**

Plan Description and Benefits Provided (Cont'd) - Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Contributions - The funding policy for the OPEB plan is pay-as-you-go; therefore, there is no prefunding of the liability. However, due to premium rates being set prior to each calendar year, there is a minimal amount of net position available to cover benefits in future years. Contributions to pay for the health benefit premiums of participating employees in the OPEB plan are collected from the State of New Jersey, participating local employers, and retired members.

The Fire District was billed monthly by the Plan and paid \$53,906.40, for the year ended December 31, 2022, representing 8.10% of the Fire District's covered payroll. During the year ended December 31, 2022, retirees were not required to contribute to the Plan.

OPEB Liability, OPEB (Benefit) Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

OPEB Liability - At December 31, 2022, the Fire District's proportionate share of the net OPEB liability was \$1,519,838.00.

The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022.

The Fire District's proportion of the net OPEB liability was based on the ratio of the Plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2021 through June 30, 2022. For the June 30, 2022 measurement date, the Fire District's proportion was .009411%, which was an increase of .000837% from its proportion measured as of the June 30, 2021 measurement date, as adjusted.

OPEB (Benefit) Expense - At December 31, 2022, the Fire District's proportionate share of the OPEB (benefit) expense, calculated by the Plan as of the June 30, 2022 measurement date, is \$100,599.00.

Deferred Outflows of Resources and Deferred Inflows of Resources - At December 31, 2022, the Fire District had deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience	\$ 78,486.00	\$ 281,713.00
Changes of Assumptions	202,829.00	518,692.00
Net Difference between Projected and Actual Earnings on OPEB Plan Investments	400.00	-
Changes in Proportion	390,046.00	10,368.00
Contributions Subsequent to the Measurement Date	26,950.20	-
	<u>\$ 698,711.20</u>	<u>\$ 810,773.00</u>

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (CONT'D)**OPEB Liability, OPEB (Benefit) Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources (Cont'd)**

Deferred Outflows of Resources and Deferred Inflows of Resources (Cont'd) - Deferred outflows of resources in the amount of \$26,950.20 will be included as a reduction of the Fire District's net OPEB liability during the year ending December 31, 2023. The Fire District will amortize the above other deferred outflows of resources and deferred inflows of resources related to the OPEB liability over the following number of years:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>		<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between Expected and Actual Experience			Net Difference between Projected and Actual Investment Earnings on OPEB Plan Investments		
Year of OPEB Plan Deferral:			Year of OPEB Plan Deferral:		
June 30, 2018	-	8.14	June 30, 2018	5.00	-
June 30, 2019	-	8.05	June 30, 2019	5.00	-
June 30, 2020	7.87	-	June 30, 2020	5.00	-
June 30, 2021	-	7.82	June 30, 2021	5.00	-
June 30, 2022	7.82	-	June 30, 2022	5.00	-
Changes of Assumptions			Changes in Proportion		
Year of OPEB Plan Deferral:			Year of OPEB Plan Deferral:		
June 30, 2017	-	8.04	June 30, 2017	8.04	8.04
June 30, 2018	-	8.14	June 30, 2018	8.14	8.14
June 30, 2019	-	8.05	June 30, 2019	8.05	8.05
June 30, 2020	7.87	-	June 30, 2020	7.87	7.87
June 30, 2021	7.82	-	June 30, 2021	7.82	7.82
June 30, 2022	-	7.82	June 30, 2022	7.82	7.82

Other amounts included as deferred outflows of resources and deferred inflows of resources related to the OPEB liability will be recognized in future periods as follows:

<u>Year Ending Dec. 31,</u>	
2023	\$ (51,520.00)
2024	(51,641.00)
2025	(31,778.00)
2026	2,847.00
2027	25,588.00
Thereafter	<u>(32,508.00)</u>
	<u>\$ (139,012.00)</u>

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (CONT'D)**Actuarial Assumptions**

The actuarial assumptions vary for each plan member depending on the pension plan in which the member is enrolled. The actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022, used the following actuarial assumptions, applied to all periods in the measurement:

Salary Increases *

PERS - Rates for all future years	2.75% to 6.55% based on years of service
PFRS - Rates for all future years	3.25% to 16.25% based on years of service

Mortality:

PERS - Pub-2010 General classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2021

PFRS - Pub-2010 Safety classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2021

* salary increases are based on years of service within the respective Plan

Actuarial assumptions used in the valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2018 to June 30, 2021.

100% of active members are considered to participate in the Plan upon retirement.

All of the Plan's investments are in the State of New Jersey Cash Management Fund (the "CMF"). The New Jersey Division of Investments manages the CMF, which is available on a voluntary basis for investment by State and certain non-State participants. The CMF is considered to be an investment trust fund as defined in GASB Statement No. 31, *Certain Investments and External Investment Pools*. The CMF invests in U.S. government and agency obligations, commercial paper, corporate obligations and certificates of deposit. Units of ownership in the CMF may be purchased or redeemed on any given business day (excluding State holidays) at the unit cost of value of \$1.00. Participant shares are valued on a fair value basis. The CMF pays interest to participants on a monthly basis.

Discount Rate - The discount rate used to measure the OPEB liability at June 30, 2022 was 3.54%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Note 9: POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (CONT'D)**Actuarial Assumptions (Cont'd)**

Health Care Trend Assumptions - The health care trend assumptions used is as follows:

Fiscal Year Ending	Annual Rate of Increase			
	Medical Trend			Prescription Drug Trend
	Pre-65	PPO Post-65	HMO Post-65	
2023	6.25%	-1.89%	-1.99%	8.00%
2024	6.00%	-6.00%	-6.15%	7.50%
2025	5.75%	6.99%	7.02%	7.00%
2026	5.50%	15.04%	15.18%	6.50%
2027	5.25%	13.00%	13.11%	6.00%
2028	5.00%	11.47%	11.56%	5.50%
2029	4.75%	10.27%	10.35%	5.00%
2030	4.50%	9.29%	9.35%	4.50%
2031	4.50%	8.50%	8.55%	4.50%
2032	4.50%	6.25%	6.27%	4.50%
2033 and Later	4.50%	4.50%	4.50%	4.50%

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The net OPEB liability, calculated using a discount rate of 3.54%, as well as using a discount rate that is 1% lower or 1% higher than the current rate used, is as follows:

	1% Decrease (2.54%)	Current Discount Rate (3.54%)	1% Increase (4.54%)
Proportionate Share of the Net OPEB Liability	\$ 1,761,798.00	\$ 1,519,838.00	\$ 1,325,158.00

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate

The net OPEB liability, using a healthcare cost trend rate that is 1% lower or 1% higher than the current healthcare cost trend rate used, is as follows:

	1% Decrease	Healthcare Cost Trend Rate	1% Increase
Proportionate Share of the Net OPEB Liability	\$ 1,289,324.00	\$ 1,519,838.00	\$ 1,815,061.00

OPEB Plan Fiduciary Net Position

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB (benefit) expense, information about the respective fiduciary net position of the State Health Benefits Local Government Retired Employees Plan and additions to/deductions from the Plan's respective fiduciary net position have been determined on the same basis as they are reported by the Plan. Accordingly, contributions (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 10: RISK MANAGEMENT

The Fire District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The Fire District maintains commercial insurance coverage for property, liability, and surety bonds.

New Jersey Unemployment Compensation Insurance - The Fire District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Contribution Method". Under this plan, a contribution method rate is established annually for the Fire District's share on unemployment tax. This rate is based on cost experience for all government employers.

Note 11: DEFERRED COMPENSATION

The Fire District offers its employees a Deferred Compensation Plan in accordance with Internal Revenue Code Section 457 which has been approved by the Director of the Division of Local Government Services. The Plan, available to all full time employees at their option, permits employees to defer a portion of their salary to future years. The deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency.

Amounts deferred under Section 457 plans must be held in trust for the exclusive benefit of participating employees and not be accessible by the Fire District or its creditors. Since the Fire District does not have a fiduciary relationship with the Plan, the balances and activities of the Plan are not reported in the Fire District's financial statements.

Note 12: COMPENSATED ABSENCES

The Fire District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Union Employees - Union employees, permanent or full time provisional, are entitled sick leave with pay based on their aggregate years of service. Sick leave is accrued to full time employees on the basis of one hundred twenty (120) hours annually. Sick leave days may be accumulated and carried forward to the following year. Employees are entitled to thirty-two (32) personal hours per calendar. Personal days not used during the year are carried forward to the following year and reclassified as sick leave. Each employee is entitled to vacation leave based on the number of years of continuous service. The vacation time carried forward must be used in the following year or it will be forfeited. The Fire District compensates employees for unused sick leave upon death or retirement at the current rate of pay. Upon retirement, employees will be paid a lump-sum payment based on fifty percent of the accumulated sick leave on the date of retirement, up to a maximum of \$15,000.00. In the event that an employee dies, the beneficiary will receive a lump-sum payment based on fifty percent of the accumulated sick leave on the date of death, up to a maximum of \$15,000.00. If the employee dies in the line of duty, the beneficiary will receive a lump-sum payment for one hundred percent of the accumulated sick leave upon the date of death, up to a maximum of \$15,000.00. Employees are also compensated at their current rate of pay for unused vacation and compensation time upon termination of employment.

Non-Union Employees - Non-union employees are entitled to fifteen paid sick leave days each year. Sick leave days may be accumulated and carried forward to the following year. Employees are entitled to four personal days per calendar year. Personal days not used during the year are carried forward to the following year and reclassified as sick leave. Each employee is entitled to vacation leave of 10 days or seventy (70) hours. The vacation time carried forward must be used in the following year or it will be forfeited.

Note 12: COMPENSATED ABSENCES (CONT'D)

Fire District Employees are compensated at their current rate of pay for unused vacation, sick leave, and compensation time upon termination of employment or retirement. Employees hired after April 28, 1997 are entitled to accumulate sick leave, but are compensated a maximum of \$15,000.00 in unused sick days upon termination.

The liability for vested compensated absences is recorded within those funds as the benefits accrue to employees. As of December 31, 2022, the liability for compensated absences reported on the government-wide statement of net position was \$124,877.88.

Note 13: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

As of December 31, 2022, the Fire District did not have interfund receivables, payables, and transfers.

Note 14: CONTINGENCIES

Grantor Agencies - Amounts received or receivable from grantor agencies could be subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Fire District expects such amount, if any, to be immaterial.

Note 15: CONCENTRATIONS

A significant source of revenue for the Fire District comes from its ability to levy property taxes (see note 1 for detail on property taxes). The ability to levy property taxes, and the limits to which property taxes can be levied, are promulgated by State statute. As a result of this dependency, the Fire District's operations are significantly reliant and impacted by State laws and regulations regarding property taxes.

Note 16: FUND BALANCES APPROPRIATED - GENERAL FUND

The 2023 annual budget of the Fire District was adopted on December 28, 2022, and was subsequently approved by the voters at the annual election held on February 18, 2023. The adopted budget utilized \$184,196.12 of fund balance in the general fund.

The following presents the total fund balance of the general fund as of the end of the last five years and the amount utilized in the subsequent year's budget:

<u>Year</u>	<u>Balance Dec. 31</u>	<u>Utilization in Subsequent Budget</u>
2022	\$ 1,914,139.53	\$ 184,196.12
2021	1,927,590.92	155,338.85
2020	3,178,950.94	25,683.36
2019	1,398,427.46	118,047.00
2018	798,239.69	121,716.00

Note 17: FUND BALANCES**RESTRICTED**

As stated in note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the Fire District's fund balance are summarized as follows:

General Fund -

Capital Projects (Future Capital Outlays) - These funds are restricted for future capital expenditures to be made in future years. When the Fire District desires to utilize these funds in their annual budget, a capital resolution must be passed by the Board of Fire Commissioners prior to any expenditure against a capital appropriation. As of December 31, 2022, the balance is \$374,000.00.

Length of Service Awards Program (LOSAP) - Pursuant to N.J.S.A. 40A:14-187, all accumulated proceeds shall remain restricted for the volunteer members. As a result, there exists at December 31, 2022 a restricted fund balance in the amount of \$542,254.49 for future benefit payments of volunteers.

ASSIGNED

As stated in note 1, the assigned fund balance classification includes amounts that are constrained by the Fire District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the Fire District's fund balance are summarized as follows:

General Fund

For Subsequent Year's Expenditures - The Fire District has appropriated and included as an anticipated revenue for the year ending December 31, 2023, \$184,196.12 of general fund balance at December 31, 2022.

UNASSIGNED

As stated in note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The Fire District's unassigned fund balance is summarized as follows:

General Fund - As of December 31, 2022, \$813,688.92 of general fund balance was unassigned.

Note 18: SUBSEQUENT EVENTS

COVID-19 - The management of the Fire District has evaluated its financial statements for subsequent events through the date that the financial statements were issued. As a result of the spread of the COVID-19 coronavirus in New Jersey, economic uncertainties have arisen which could negatively impact the financial position of the Fire District. While the impact that COVID-19 will have is currently expected to be temporary, as of the date of the financial statements, the related financial impact and duration cannot be reasonably estimated.

TOWNSHIP OF GLOUCESTER FIRE DISTRICT NO. 4
 Required Supplementary Information - Part III
 Notes to Required Supplementary Information - Part III
 For the Year Ended December 31, 2022

Public Employees' Retirement System (PERS)

Changes in Benefit Terms:

The June 30, 2022 measurement date included three changes to the plan provisions, only one of which had an impact on the Total Pension Liability (TPL). Chapter 226, P.L. 2021 reopened the Prosecutors Part of PERS and made membership in the Prosecutors Part of PERS mandatory for all prosecutors.

Changes in Assumptions:

The discount rate and long-term expected rate of return used as of June 30 measurement date are as follows:

<u>Discount Rate</u>				<u>Long-term Expected Rate of Return</u>			
<u>Year</u>	<u>Rate</u>	<u>Year</u>	<u>Rate</u>	<u>Year</u>	<u>Rate</u>	<u>Year</u>	<u>Rate</u>
2022	7.00%	2017	5.00%	2022	7.00%	2017	7.00%
2021	7.00%	2016	3.98%	2021	7.00%	2016	7.65%
2020	7.00%	2015	4.90%	2020	7.00%	2015	7.90%
2019	6.28%	2014	5.39%	2019	7.00%	2014	7.90%
2018	5.66%			2018	7.00%		

The underlying demographic and economic assumptions were updated as a result of the Experience Study covering the period of July 1, 2018 - June 30, 2021.

Police and Firemen's Retirement System (PFRS)

Changes in Benefit Terms:

None

Changes in Assumptions:

The discount rate and long-term expected rate of return used as of June 30 measurement date are as follows:

<u>Discount Rate</u>				<u>Long-term Expected Rate of Return</u>			
<u>Year</u>	<u>Rate</u>	<u>Year</u>	<u>Rate</u>	<u>Year</u>	<u>Rate</u>	<u>Year</u>	<u>Rate</u>
2022	7.00%	2017	6.14%	2022	7.00%	2017	7.00%
2021	7.00%	2016	5.55%	2021	7.00%	2016	7.65%
2020	7.00%	2015	5.79%	2020	7.00%	2015	7.90%
2019	6.85%	2014	6.32%	2019	7.00%	2014	7.90%
2018	6.51%			2018	7.00%		

The underlying demographic and economic assumptions were updated as a result of the Experience Study covering the period of July 1, 2018 - June 30, 2021.

 Required Supplementary Information - Part IV
 Notes to Required Supplementary Information - Part IV
 Other Post Employment Benefits (OPEB)
 For the Year Ended December 31, 2022

State Health Benefits Local Government Retired Employees Plan

Changes in Benefit Terms:

The actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022, included changes due to employers adopting and /or changing Chapter 48 provisions.

Changes in Assumptions:

The discount rate used as of the June 30 measurement date is as follows:

<u>Year</u>	<u>Rate</u>	<u>Year</u>	<u>Rate</u>
2022	3.54%	2019	3.50%
2021	2.16%	2018	3.87%
2020	2.21%	2017	3.58%

The expected investment rate of return is based on guidance provided by the State. These expected rates of return are the same as the discount rates listed above.

In addition to changes in the discount rate, other factors that affected the valuation of the net OPEB liability included changes in the trend and updated experience study.

There were no changes to mortality projections.
